SECOND QUARTER 2012

GREATER LONG ISLAND CLEAN CITIES COALITION SECOND ANNUAL GOLF OUTING

On May 23, 2012, the Greater Long Island Clean Cities Coalition held its Second Annual Golf Outing at St. George's Golf and Country Club. The event was a success for the coalition and a fun day for everyone involved.

Golfers enjoyed a full round on the beautiful course, and afterwards headed into the clubhouse for cocktail hour followed by a delicious meal. Dominick

Longobardi acted as master of ceremonies for the evening portion of the outing. Prizes were given out for Longest Drive and Closest to the Pin on four holes, as well as for the Putting Contest. The following were the winners for each contest:

GLICCC - LETTER FROM THE CHAIRMAN

I hope this newsletter finds you and your families well as we end those lazy days of Summer, the kids head back to school and we begin the Fall season. I will keep this update brief.

In May, GLICCC held its Second Annual Golf Outing, bringing together a large group of stakeholders and friends for a relaxing and enjoyable day at St. George's Golf and Country Club. The rain held off and it was a great day for golf. Like everyone else, I did not win the Hole-in-One contest. (Now, had there been a *hit-the-tree-trunk-on-a-fly* contest, that would have been a different story!) Anyway, thank you to Chris Sadusky of Arnold Chevrolet for providing the prize package for the contest. In fact, a special thank you to all of our sponsors; with your support the outing was a great financial success for the coalition.

This summer GLICCC was thrilled to host at the Grand Opening of two Compressed Natural Gas (CNG) fueling stations on Long Island, one in The Town of Oyster Bay and the other in Suffolk County (one of two stations the county opened). The stations were funded by the American Recovery and Reinvestment Act of 2009. A portion of GLICCC's \$15 million fund award from the U.S. Department of Energy was used for the project. GLICCC will have additional coverage of these two events in our next newsletter.

On Friday October 5th, 2012 GLICCC will host its 16th annual Advancing the Choice Conference. The theme for this year's conference is *Alternative Fuels – Securing Our Future*. The conference will feature speakers from across the alternative fuel industry discussing current and future trends. There will be a large vehicle display and an exhibit hall. Following the conference, attendees can take part in a 9 hole round of golf on Bethpage's Blue Course. Great sponsorship options are available. You can register online now by visiting www.gliccc.org or feel free to contact Rita or Tom at 631-504-5771 in the office. This is GLICCC's premier event of the year. We hope you can join us.

I look forward to seeing everyone very soon and, as always, thank you for your continued support of our Great Coalition!

Dominick A. Longobardi

UPCOMING EVENT

Save The Date

Our 16th Annual Advancing The Choice (ATC) Conference: *"Alternative Fuels— Securing Our Future"* will be held on **Friday, October 5th from 8:00am - 1:00pm** at Bethpage State Park in Farmingdale, NY. If you have any questions, please email Rita Ebert at info@gliccc.org.

Register online at www.gliccc.org.

We hope to see you there!

BOARD OF DIRECTORS ELECTION RESULTS

On Wednesday, June 6th, the Greater Long Island Clean Cities Coalition held a Stakeholders meeting and a Board of Directors meeting.

At the Stakeholders meeting, following opening comments from Chairman Dominick A. Longobardi and an update from Program Coordinator Rita Ebert, the coalition held elections for the open and expiring seats on the Board. The open seats were: Environment/Health, Transit, Vehicle Provider, Infrastructure Developer, and Local Government, Nassau County.

See below for full list of the Board of Directors.

Thank you to all for offering their time and energy in support of the coalition.

President – Dominick A. Longobardi, GLICCC

Coalition Program Coordinator – Rita Ebert, GLICCC

Fuel Providers – Sheree Jeanes, Clean Energy Fuels

Richard Locke, Hess Corporation

Gene Bernstein, Northville Industries

Infrastructure Developer – Patrick McClave, Engineered Energy Solutions

Environment/Health – Jim Schaefer, Kleinfelder

Govt., Local Nassau – Kate Murray, Town of Hempstead

Govt., Local Suffolk – Russ Barnett, Town of Smithtown

Govt., Nassau County – Edward Mangano

Govt., Suffolk County – Steven Bellone

Heavy Duty AFV User – Mario Garofalo, V. Garofalo Carting

Light Duty AFV User – Carrie Meek-Gallagher, Suffolk County Water Authority

Transit – Michael Setzer, Veolia Transportation

Vehicle Provider – Michael Nettesheim, Syosset Trucks

At Large – Dennis Lynch, DJL Consulting

LIFT Appointee – Bill Wahlig, LIFT

AERTC Appointee – Pat Malone, Stony Brook University

Electric Utility – Mark Dougherty, LIPA

Gas Utility – Keith Sperling, National Grid

Education Provider – Dr. Nada Anid, New York Institute of Technology

TOWN OF HEMPSTEAD EV CHARGING STATION OPENING

On June 21, 2012, the Greater Long Island Clean Cities Coalition (GLICCC) celebrated

the opening of three new Electric Vehicle (EV) solar powered charging stations at Point Lookout East Marina on Long Island. The Town also showed off two new electric John Deere “Gator” vehicles. The press conference was held at 11:15 a.m. with remarks by Town of Hempstead Supervisor Kate Murray and EmPower Solar C.E.O. David Schieren. The new EV solar charging stations are currently open and operated by the Town. It will remain free of charge to the public throughout its first year of use. Congratulations to the Town of Hempstead and EmPower Solar—the stations and vehicles are wonderful ecofriendly additions to Long Island.

GLICCC'S STAKEHOLDER FOR AUGUST 2012

Congratulations to The Town of Oyster Bay for being selected as GLICCC's Stakeholder of the Month!

On July 25th the Town of Oyster Bay celebrated the Grand Opening of a new Compressed Natural Gas Station in Syosset. The station was funded by The American Recovery and Reinvestment Act (ARRA) of 2009. A portion of the Greater Long Island Clean Cities Coalition's \$15 million fund award from the U.S. Department of Energy (D.O.E.) was used for the project.

The station was built by Engineered Energy Solutions (EES) and uses ANGI Energy Systems fueling equipment. Owned and operated by the Town of Oyster Bay and maintained by EES for use by the Town's CNG fleet, the station will also be open to municipal fleets. P.W. Grosser Consulting designed the station, which includes three fast-fill pumps with six hoses and 50 time-fill posts. The station is located at 150 Miller Place in Syosset (on Long Island Expressway North service road).

"Natural gas is the cleanest readily available fuel for large trucks, and the construction of a CNG fueling facility, coupled with converting diesel-powered trucks to CNG-powered vehicles, is providing real, quantifiable, and significant reductions in greenhouse gas and criteria pollutant emissions while displacing the use of petroleum and helping further the Town's commitment to energy conservation," said Town of Oyster Bay Supervisor John Venditto. "The Town is very grateful to the Greater Long Island Clean Cities Coalition for helping us obtain a grant from the U. S. Department of Energy to help fund this project."

The Town of Oyster Bay purchased 19 new CNG refuse trucks, and retrofitted 31 trucks to CNG. The town also modified the maintenance facilities at the site to be CNG compliant.

The total project cost will be \$15,350,660, with the Department of Energy contributing \$5,823,529 and the Town of Oyster Bay accounting for \$9,527,131 in cost share.

"Supervisor John Venditto and the Oyster Bay Town Board should be commended for their efforts and leadership in paving the way for energy independence for future generations," said GLICCC Chairman Dominick A. Longobardi. "This project, combining both infrastructure and alternative fuel vehicles, is a model by which all of our Long Island stakeholders - and residents of our great country alike - can learn from and use to help create the secure future our country so richly deserves."

Once again, congratulations to The Town of Oyster Bay for being selected as GLICCC's Stakeholder of the Month. If you would like to nominate someone for Stakeholder of the Month, please contact the GLICCC office.

GOLF OUTING CONT.

(Continued from Page 1)

Longest Drive:

Sarah Roe

Chris Clarke

Closest to the Pin:

7th – Dennis Shin – 18’ 6”

9th – Brian Hassan – 6’ 3”

11th – Chris Clarke – 5’ 4”

17th – John Mullen – 8’ 11”

Putting:

1st place- Mario Garofalo

2nd place- Sarge Surdi

3rd place- Kevin Sorady

A special congratulations to our overall winning foursome of Chris Clarke/Vectrix, Gerry White/Vectrix, Inspector LoRusso/NYPD, Rob Squicciarino/NYPD with a score of 61!

Special thanks to Chris Sadusky of Arnold Chevrolet, who provided the prize package for the Hole-in-One Competition — a 2012 Chevrolet Volt. There was no hole-in-one this time, but there’s always next year!

This event would not have been possible without the generous support of our sponsors, participants and friends. Thanks also to those who contributed to our give-away bags: Calstart– bags; Engineered Energy Solutions– towels; Espar– lip balm; Rides Unlimited– hats, sunscreen, and lunch bags; Sports Authority– discount coupon; and V. Garofalo Carting– golf balls.

A very big thank you to everyone at St. George’s Golf and Country Club for all they did to make this event a great success. Finally, thank you to everyone on the Golf Committee for all of their efforts. It really paid off.

We are pleased to report that through the generous support of our sponsors we were able to raise over \$13,000 at this event, far exceeding the total from last year’s outing. The proceeds from this event, and other GLICCC fundraisers, helps offset the operating expenses to run the coalition.

We look forward to making next year’s GLICCC Golf Outing an even greater success!

NEW ADDITION TO GLICCC WEBSITE

Interactive Alternative Fuel Station Locator

In case you haven't already noticed it, there is an exciting new feature on the Greater Long Island Clean Cities Coalition website.

This summer GLICCC began working with Kleinfelder to introduce an interactive map for stakeholder and public use. The map was made with ArcGIS software and can be used to locate all alternative fueling stations on Long Island.

The different colored pins represent the various fuel types (biodiesel, compressed natural gas, electric, ethanol, hydrogen, and propane) so that each type of fueling station is indicated appropriately on the map. This map also contains zoom capability, as well as a search feature to assist in locating the closest station to your desired location. As new stations are built, the map will be updated to display the newest information for all alternate fuel stations.

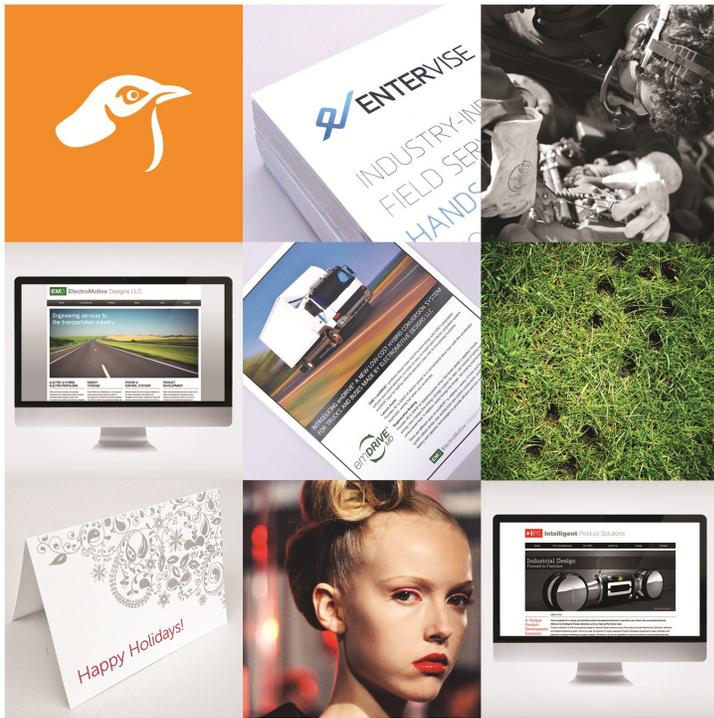

GLICCC owes a tremendous debt of gratitude to Jim Schaefer and Jim Rockwood from Kleinfelder, as well as GLICCC interns Walter Goodwin and Mark Hrvatin, for their assistance and support with this project.

Go to our website to see the map!
